

Maryam Asif

Gmail: maryamcreate019@gmail.com

Objective: Motivated BS Artificial Intelligence student at UET Lahore seeking an internship or entry-level position to apply my programming skills and passion for AI on real-world projects. Proficient in Machine Learning workflows, Deep Learning (OOP with PyTorch), and performance evaluation metrics. Committed to continuous learning and delivering quality results.

Experience:

AI Engineering Intern — CodeAlpha

May 20, 2026 – June 20, 2026

- Completed a one-month internship as an AI Engineering Intern, gaining practical experience in Artificial Intelligence and software development.
- Developed an AI-powered Web Translation Application using AI and NLP concepts.
- Built an FAQ Chatbot to provide automated responses to user queries.
- Applied Python and AI technologies to develop practical, user-focused solutions.

AI Engineer Intern — Axorvian

Lahore, Pakistan

- Worked as an AI Engineer Intern, gaining hands-on experience in modern AI and Generative AI technologies.
- Worked with Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), and LangChain.
- Developed AI-powered solutions using Python and explored concepts related to NLP, embeddings, vector databases, and prompt engineering.
- Applied AI concepts to build practical and intelligent applications.

Education:

BS Artificial Intelligence | University of Engineering & Technology (UET), Lahore Current

Skills:

- Programming Languages: Python, C++, SQL
- Python Libraries & Frameworks: NumPy, Pandas, Matplotlib, Streamlit, spaCy, LangChain, FAISS, PyMuPDF, gTTS, Deep Translator
- Artificial Intelligence & Machine Learning: Machine Learning, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, Embeddings, Semantic Search, Vector Search
- APIs & AI Tools: Google Gemini API, LangChain, FAISS

- Database Technologies: SQLite
- Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Knowledge Base Management, User Authentication, CRUD Operations, Session Management, Chat History Management, Feedback Management
- Developer Tools: Git, GitHub, Visual Studio Code

Projects:

Multi_language Translation App

Console-Based Chatbot(NLP&ML)

AI_Chatbot using Geminia API KEY

AI Resume Analyzer using python ,streamlit, spacy, PyMuPDF

IPL Auction Data Analysis using python,pandas, Numpy,Matplotlib

AI Customer Chatbot Analyzer

AI_Interview_Platform
